Independent auditor's report

To the Board of Directors of VIA University College

Report on the financial statements

We have audited the financial statements of VIA University College for the financial year 1 January to 31 December 2014, which comprises accounting policies, income statement, balance sheet, cash flow statement, notes and special specifications. The financial statements are prepared in accordance with the Danish Act on government financial accounting, etc and rules laid down in the Financial Administrative Directions prepared by the Danish Ministry of Finance.

Management's responsibility for the financial statements

Management is responsible for the preparation of financial statements which are correct, i.e. free of material misstatement in compliance with the Act on government financial accounting, etc and rules laid down in the Financial Administrative Directions prepared by the Ministry of Finance. Management is also responsible for the internal control, which Management finds necessary for the preparation of financial statements that are free from material misstatement, whether due to fraud or error, selecting and applying appropriate accounting policies, and making accounting estimates that are reasonable in the circumstances.

Furthermore, it is Management's responsibility that transactions encompassed by the financial statements comply with the granted allocations, acts, other regulations, agreements entered into and usual practice.

Auditor's responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with international standards on auditing and additional requirements under Danish audit regulation, good public auditing practice as well as the Danish Ministry of Science, Innovation and Higher Education's executive order No 1294 of 12 December 2008 on audit and subsidy control, etc at university colleges for higher education as well as the Danish School of Media and Journalism. This requires that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing audit procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant for the College's preparation of financial statements, which are correct, i.e. without material misstatement in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the College's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by Management as well as the overall presentation of the financial statements.

Independent auditor's report

The audit also involves assessing whether business processes and internal controls have been established, supporting that the transactions encompassed by the financial statements comply with the granted allocations, acts, other regulations, agreements entered into and usual practice.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Our audit has not resulted in any qualification.

Opinion

In our opinion, the financial statements for the financial year 1 January to 31 December 2014, in all material respects, have been prepared in accordance with the Danish Act on government financial accounting, etc and rules laid down in the Financial Administrative Directions prepared by the Danish Ministry of Finance. We are also of the opinion that business processes and internal controls have been established, supporting that the transactions encompassed by the financial statements comply with the granted allocations, acts, other regulations, agreements entered into and usual practice.

Statement on the management commentary and performance reporting

We have read the management commentary. We have not performed any further procedures in addition to the audit of the financial statements. Based on this, we believe that the disclosures in the management commentary are consistent with the financial statements.
