Exchange Opportunities

EXCHANGE OPPORTUNITIES

Next stop Denmark – get an experience of a lifetime at VIA University College

Become part of a unique international student community – a community that will provide you with many possibilities to explore your interests, challenge and develop your professional knowledge and skills, and help you reach your goals.

Why should you consider Denmark

The Danish education system focuses on innovation, creativity, analytical and critical thinking. Here, you will be met by modern learning environments with access to state-of-the-art equipment and the newest research – often with a focus on sustainable solutions and with an entrepreneurial spirit.

Top reasons for choosing Denmark:

- A safe study destination with many international students from all over the world
- A modern and high-quality education system
- A different way of teaching that fosters independency as well as innovative thinking

Theory and practice go hand in hand

VIA's study programmes connect theoretical teaching based on the latest research results with professional practice. Project-based learning is therefore a part of our educational culture.

Our teaching style focuses on students being responsible for their own education. We focus on dialogue-based learning and emphasise contact between lecturers and students.

What makes VIA unique:

- Problem-based learning and project-oriented group work used throughout the education
- Focus on innovation, digitalisation and sustainability in our academic activities
- Small-sized classes that focus on dialogue between students and lecturers

A variety of programmes

VIA University College offers a variety of exchange programmes in areas such as, film, business, construction, design, teaching, social studies, engineering, and healthcare.

You will also find interesting summer schools and short-term courses in our catalogue.

The programmes are located at our campuses in Aarhus, Herning, Viborg, Randers, Holstebro or Horsens – all in the heart of the Central Denmark Region.

Facts about our exchange programmes:

- Duration: One semester (30 ECTS)
- Language: English, B2 level
- Academic level: Bachelor's level
- Tuition: Free for students at partner institutions
