

VIA University College Scholarship

Each year, VIA University College awards a limited number of scholarships to highly qualified students from countries outside the EU and the EEA. VIA University College Scholarship is an institution-funded scholarship scheme available to students currently enrolled in one of VIA University College's English taught full degree or double degree programmes. The VIA University College Scholarship is awarded to one out of five international, tuition-fee paying students.

The scholarship can be applied for by all current, international and tuition-fee paying students who have completed the first year of studies at VIA (2 semesters). A maximum of **two full semesters** can be awarded during studies at VIA. It is possible to apply for a scholarship with a degree of self-financing (max. 50 %), which - if granted a scholarship - enables a scholarship recipient to re-apply later, however the full awarded scholarship cannot exceed two fully covered semesters. The student must have completed all semesters prior to applying for the scholarship.

Previous scholarship recipients who are still students at VIA are able to apply for the scholarship again, but can maximum be awarded one fully covered semester for the remaining part of their studies at VIA. Students, who study top-up programmes at VIA, can only apply for the scholarship if they have not been granted a scholarship during the first part of their AP-degree.

VIA awards scholarships based on the following criteria:

- Highly qualified students (illustrated by high academic qualifications from current studies and references from teachers/employers).
- Priority is given to students from countries that VIA University College focus specifically on.
- The scholarship is awarded for a maximum of **two** semesters during studies at VIA.
- The scholarship includes either a full tuition fee grant or a tuition fee grant with 25 % or 50 % self-financing. It is possible to state in the application form if a degree of self-financing is possible.
- The student's financial situation as described in the application form.

Previous scholarship applicants are not given priority. All applications are evaluated on an equal basis at each application round.

The scholarship does not contain a monthly board and lodging grant.
