World Water Camp

October 2020

World Water Camp 2020

Are you a bachelor or master student with high interest in water resources and climate change? Sign up for World Water Camp 2020 for a unique learning experience!

Date: October 18-23 2020

Location: Copenhagen, Denmark

About the camp

World Water Camp is a one-week course camp aimed at bachelor or master students whom want to learn more about water resource management and climate change adaption.

The camp takes place alongside the IWA World Water Congress & Exhibition. As a camp participant, you will explore the Congress and learn from this highly inspiring environment counting 10,000 water professionals from all over the world.

Program

A day at the camp:

- Morning Lectures addressing the Task of the Day
- Group activities at the congress site
- Evening "Philosophers' Hour" enhancing reflection on the experiences of the day

The program also includes:

- Technical tours
- Engaging "Career Talks"
- A festive dinner and a visit in the world renown amusement park Tivoli

A more detailed program will be provided closer to the event.

Want to sign up?
