Fall 2024

Meet Your Future 2024

The Animation Workshop

Meet Your Future

Meet the creative and talented students from The Animation Workshop at Meet Your Future in Viborg.

If your company wishes to establish collaborations with students, Meet Your Future is an ideal platform to initiate conversations with students seeking internships, student job, or even potential future employees.

The purpose of Meet Your Future is to offer your company a chance to learn more about the students from The Animation Workshop and to explore the potential for a good match between you.

Meet Your Future is a networking event where companies and students can meet in an informal setting. Each participating company will have a table, and the students will walk around and network.

The event is free, but all participants must sign up. The event is hosted in collaboration with Viborg Animation Festival.

Place:
Arsenalet; Kasernevej 8, 8800 Viborg

Time:
Wednesday, September 11 at 3 - 5.30 pm

Program:
3- 3.45 pm: Tour of The Animation Workshop (Voluntary)

4 - 5.30 pm: networking with students

Sign up:
Sign up for the event here
Deadline is August 21st.

The Animation Workshop

Read more about the students you can meet at Meet Your Future:

Character Animation
Creative and innovative animators in both 2D and 3D who bring characters to life and invoke the empathy of the audience. Character Animators have a strong skill set within and understanding of acting and animation principles and are used to working in collaborative teams with other skill sets to create short films, games, trailers, and other visual material.
Read more about Character Animation here.

Computer Graphic Arts
Creative and technically oriented students within 3D-Animation. Computer Graphic Artists work extensively with software in modeling, rigging, texturing, and much more. Their skill sets are used in various creative and commercial industries and they are used to working in collaborative teams with other skill sets to create short films, games, trailers, and other visual material.
Read more about Computer Graphic arts here.

Graphic Storytelling
Graphic Storytellers acquire and train a versatile toolbox to create comics, illustrations, story-boards, graphic novels, visual development for films and games, and much more. The graphic storytellers are experienced in running creative processes and in working on creative teams. They work with both creative and commercial industries.
Read more about Graphic Storytelling here.
